Norbel Baldos

Senior IT Technician
(Province of Leyte)

Phone: 09060846688

OBJECTIVE:

To obtain a challenging position in an IT-related role where I can utilize my technical skills, problem-solving abilities, and knowledge in systems, networks, and web technologies to contribute to the success and growth of the organization while continuously developing my professional expertise.

WORK EXPERIENCE

Provincial Government of Leyte (Special Project Office)

IT Technical Support (May- May) **2025 - 2026**

- Supported end-to-end deployment of digital and special IT projects, including system installation, infrastructure setup (servers, routers, switches, and access points), troubleshooting, and backup management to ensure system reliability, availability, and data security.

Tacloban City Police Office

IT Intern (February - April) **2025**

- Provided on-site technical support by resolving hardware, software, and peripheral issues, while maintaining LAN stability and optimizing workstation performance to ensure smooth daily operations.

McDonald's Real Tacloban

Service Crew (April - February) **2024 - 2025**

- Delivered strong performance in a fast-paced environment by applying effective customer service, resolving issues, and collaborating with the team to meet operational deadlines and standards.
